Demo and next steps

A presentation to: CCITF members
By: Raphaëlle Lancey OED/SPPG
Date: 24 June 2021

What is IATI

- The International Aid Transparency Initiative is a voluntary multi-stakeholder initiative that seeks to **improve transparency**. The aim is to make information about **aid spending** easier to access, understand and use.
- At the centre of IATI is the **IATI Standard**, a format (XML) and framework for publishing data.
- Over **1,260 organisations** have published data to the IATI Standard. 18 are **UN agencies** and some are **ITC funders**.
- The “IATI data” on ITC projects is available on **IATI’s portal (d-portal)**.
- Many publishers have developed their own **open data website** to better visualize IATI information

ITC's IATI data

- ITC has been compliant since 2018, publishing 90% of XB-portfolio by project value (around 100 projects).
- ITC publishes data twice a year.
- ITC has achieved a transparency score ranking of 108th out of 1260 publishers
